Work History

**Apr 2021 -
Current**

Web Developer Intern

Story Squad, CA

Story Squad

Children's Creative Writing App | React | Redux | Node.js | Express Story Squad is designed to improve the reading comprehension skills of children in a collaborative storytelling way. Children around the ages 8-12 to read a passage, draw a picture based on the passage, and write a short story that would extend the original story's content and compete with their peers.

- Worked on a 12-person team consisting of data scientists, UI designers, front-end and back-end developers
- Used Trello to manage project goals and development of features based on user stories
- Analyzed codebase (2,000+ lines) to determine necessary fixes and implementations

Tricktionary

Party Game | React | Recoil | Node.js | Express |Typescript

A game making the start of zoom calls exciting!

- Worked on a small team with front end/back end developers and UI designers
- Helped make a beautiful layout for accessibility and readability
- Helped make essential functions like the global timer that matches on everyone's screen.

**Sep 2018 -
Current**

Web - Tutor

Carmichael, CA

- Assisted 15+ students to complete homework assignments, identify lagging skills, and correct weaknesses.
- Planned lessons for the allotted time to strengthen weak subjects and build skills.
- Held meetings with parents and guardians each grading period to discuss students' progress and respond to concerns.
- Developed student confidence through attentive instruction in Elementary Statistics, applying positive reinforcement strategies.

Education

**Jul 2020 - Mar
2021**
